Software Engineer Student

Motivated and eager student with a growing passion for Software Development. I enjoy learning new technologies, tackling challenges, and building projects that strengthen my skills in programming, problem-solving, Design, and teamwork. Through my coursework and personal projects, I've developed a solid foundation and am excited to gain real-world experience. I am enthusiastic about contributing to a team, learning from professionals, and making a meaningful impact during my internship.

Skills

React.js
Tailwind CSS
Figma
GSAP
Three.js
Git & GitHub
Linux

Languages

English	Highly proficient
Amharic	Highly proficient
Arabic	Very good command

Experience History

1 Student Front-End Dev

Self-directed, Mekelle

Jan 2025 – Present

- Built multiple academic software projects using **Java, C++, JavaFX, and MySQL**
- Used **Git and GitHub** for version control and project collaboration
- Currently expanding front-end development skills as a **beginner in React.js, Three.js, TailwindCSS, and GSAP**, building interactive and animated web interface
- Building interactive user interfaces and experimenting with animations and 3D elements for the web

2 Self-taught Junior Game Developer

Self-directed, Mekelle

Dec 2025 – Present

- Learning the fundamentals of **game design and development**, including **game play mechanics** and **interactive systems**
- Exploring how **visuals, motion, and user experience** work together in interactive digital environments
- Studying core concepts such as **object interaction, event systems, and immersive design**

Education

3 BSc in Software Engineering

Mekelle University, Mekelle

2023 – Present

Studying software engineering fundamentals including programming, algorithms, databases, and software design, while building practical projects and continuously upskilling beyond the curriculum through self-learning.
